📘 ✨ The first deterministic authorship fingerprint ever published for a book.

This swirl isn't style.

It's entropy.

Cadence.

Cognitive rhythm.

Personal style.

Sealed under DI2, this visual fingerprint proves that the same author wrote all the text from a book. To our knowledge, no probabilistic model can mimic its entropic structure.

No training needed.

Near-zero hallucinations.

Just math + logic + authorship integrity.

#AuthorshipMatters #DeterministicAI #DI2
